PROFESSIONAL SUMMARY

UI/UX Designer with a background in Computer Science Engineering, focused on creating intuitive and user-centered digital experiences for web and mobile applications. Skilled in wireframing, prototyping, user flows, visual hierarchy, and interaction design. Experienced in collaborating with developers to deliver clear, functional, and visually consistent interfaces.

SKILLS

UI/UX Design: Figma, Adobe XD, Sketch, Wireframing, Prototyping, User Flows, Information Architecture, Interaction Design

Frontend: HTML, CSS

Visual Design: Adobe Photoshop, Adobe Illustrator, Canva

Motion: Adobe After Effects, Adobe Premiere Pro

AI Tools: ChatGPT, Gemini, Perplexity, Leonardo AI

PROFESSIONAL EXPERIENCE

CityScene Global

March 2026 – Current

UI/UX Designer

Graphic Design: Conceptualized and designed branding assets, marketing collateral, and social media visuals to strengthen global brand identity.

Video Editing: Produced high-quality motion graphics and video content for promotional campaigns using After Effects and Premiere Pro.

Cross-Functional Collaboration: Partnering with product managers and stakeholders to translate complex requirements into intuitive, aesthetically pleasing interfaces.

Design Standards: Implementing advanced prototyping techniques and refining design standards to enhance overall product fidelity.

Strategic Iteration: Utilizing data-driven insights and user feedback loops to iterate on features and optimize platform-wide usability.

- Interface Design:** Developed pixel-perfect UI layouts for scalable web and mobile platforms, ensuring high visual consistency and accessibility compliance.
- Visual & Graphic Assets:** Designed custom vector illustrations and high-quality visual content for digital marketing materials and presentations.
- Multimedia Creation:** Edited video walkthroughs and product demos to provide a clearer understanding of application features for end-users.
- Prototyping & Logic:** Built interactive high-fidelity prototypes and complex user flows to validate navigation logic and enhance end-to-end user journeys.
- Design Systems:** Established and maintained a comprehensive Design System/Component Library to streamline design-to-development handoffs.
- Technical Collaboration:** Collaborated closely with engineering teams to ensure technical feasibility and accurate implementation of assets.

PROJECTS

Personal Portfolio Website

Designed a user-centric portfolio with clean navigation and strong visual hierarchy. Focused on responsive design, readability, and accessibility.

Travel Website

Designed a responsive travel platform with intuitive navigation and clear content flow. Applied visual storytelling principles to improve engagement.
